

Accord test meeting

Digital onboarding pilot | Fictional transcript

Product smoke test only. Not formal evaluation data.

Sam: Welcome to our digital onboarding planning meeting.

Alex: The draft checklist was reviewed yesterday.

Sam: Today we need to agree on next steps for the onboarding pilot.

Alex: I will send the revised onboarding checklist by Friday.

Priya: I will review the checklist and share comments by Monday.

Mia: I will update the help page text before the next meeting.

Sam: Noah, please check the FAQ links before the next meeting.

Noah: Agreed. I can take that task.

Mia: Maybe we could add a chatbot later. This is only a suggestion.

Priya: We have not agreed to build a chatbot or assign that work.

Sam: The pilot must use fictional accounts, not real customer data.

Alex: Understood. There are no additional commitments today.
